

# ReVue Ultra Gen 2

Modular Equipment Table

Also available

- AcouPlex shelves and uprights for ultimate isolation
- Improvements to dynamic range, pitch, harmonic accuracy, stereo staging, and the timing of your system
- Modular system – from single platform to 7-tier stand
- Builds on the award-winning ReVo range
- Thick 15mm shelves with 3 spacing options

Following on from our hugely successful and award-winning ReVo products, ReVue offers even greater flexibility and modularity, whilst improving on all the isolation properties that made it such a reviewers' favourite.

This 'Ultra Gen 2' model is almost entirely constructed from a revolutionary new compound material called AcouPlex.

AcouPlex is exclusive to MusicWorks and has been developed from the ground up to deliver superior isolation and improves markedly on any other material we have heard.

MusicWorks equipment stands are both modular and interchangeable, making it easy to purchase what you need now, with the ability to extend, split or upgrade the stand as the need arises.

If you have capable, wide dynamic range, wide bandwidth equipment, one of our tables could be the biggest upgrade you can make.

## ReVue Ultra Gen 2

AcouPlex Equipment Table

The ReVue Ultra Gen 2, which is plug-compatible with the P-ReVue, substitutes a revolutionary new compound material called AcouPlex.

AcouPlex is exclusive to MusicWorks and has been developed from the ground up to deliver superior isolation and improves markedly on any other material we have heard.

Modular system – from single platform to 7-tier stand

## P-ReVue

PEEK/Acrylic Equipment Table

Following on from our hugely successful and award-winning ReVo products, P-ReVue offers even greater flexibility and modularity, whilst improving on all the isolation properties that made it such a reviewers' favourite.

The isolation components in P-ReVue are acrylic shelves, with PEEK (a highly advanced high tensile strength, semicrystalline polymer) uprights.

Modular system – from single platform to 7-tier stand

# Components

Simply purchase what you need now, with the ability to extend or split the stand as the need arises.
