

“When it comes to choosing those supports, you'd be well advised to seriously consider AcouPlex... its musical impact is as obvious as it is positive”

Steve Dickinson

ReVue² AcouPlex™ Equipment Support System

- AcouPlex™ shelves and uprights for ultimate isolation
- Improvements to dynamic range, pitch, harmonic accuracy, stereo staging, and the timing of your system
- Modular system – from isolation platform to 7-tier stand
- Mix-and-match with ReVue² Wood and Acrylic components
- Thick 15mm shelves with 3 riser height options

Following on from our hugely successful and award-winning ReVo products, ReVue² offers even greater flexibility and modularity, whilst improving on all the isolation properties that made it such a reviewers' favourite.

Our flagship model is almost entirely constructed from a revolutionary new compound material called AcouPlex™.

AcouPlex™ is exclusive to MusicWorks and has been developed from the ground up to deliver superior isolation and improves markedly on any other material we have heard.

MusicWorks equipment support systems are both modular and interchangeable, making it easy to purchase what you need now, with the ability to extend, split or upgrade the stand as the need arises.

If you have capable, wide dynamic range, wide bandwidth equipment, one of our tables could be the biggest upgrade you can make.

ReVue² Wood/Acrylic

Equipment Support
System

- Acrylic Shelves for cost-effective high performance isolation
- Hand-made solid wood uprights (maple and walnut as standard)
- Custom Acrylic or bespoke wood upright options
- Modular system – from isolation platform to 7-tier stand
- Mix-and-match with ReVue² AcouPlex™ table
- 10mm or 15mm shelves with 3 riser height options

Following on from the high performance ReVo table, the ReVue² offers even more flexibility, with performance options far exceeding the isolation offered of the award winning ReVo.

Incredibly flexible, with beautiful hand-made wooden finishes, high performance AcouPlex™ options bring some of the performance advantages of our ultimate design. For those who loved our previously available all-acrylic finish, there's even an option to supply the table with acrylic uprights.

MusicWorks equipment support systems are both modular and interchangeable, making it easy to purchase what you need now, with the ability to extend, split or upgrade the stand as the need arises.
