

## Application Note 1

### ReFract Sub-table

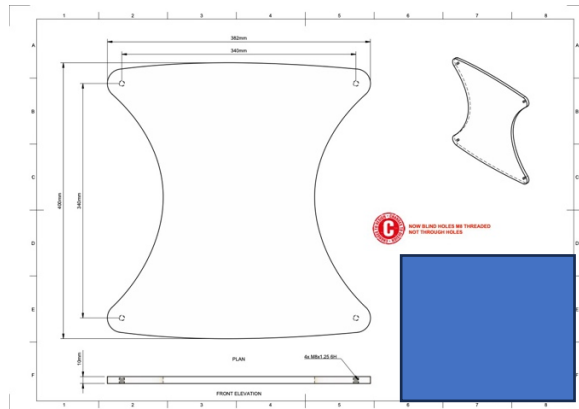

The MusicWorks AcouPlex ReFract was originally designed as an energy absorption panel for CH Precision electronics. Its applications are far wider. Here we describe its use as a sub-table for electronics and stand alone isolation platform.

### Items Needed

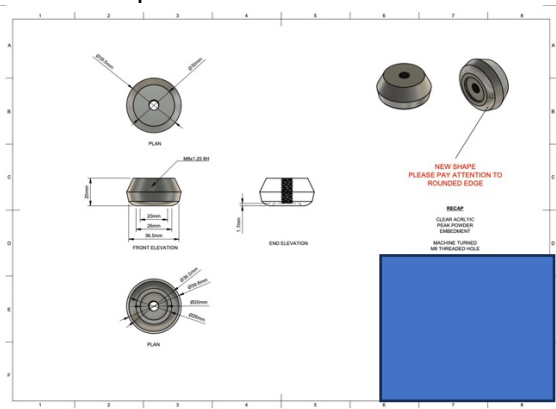

- 1 x ReFract Panel
- 4 x ReCap X feet
- 4 x 12mm x M8 PEEK studding

### Specifications

ReFract Panel
